

SERVICES FOR THE HISTORIC CITY CENTRE

To keep our city neat and improve separate waste collection at the same time, Alea Ambiente has put in place a series of services designed for the historic city centre: some for businesses, other for households mainly.

Optional business services

CARDBOARD collection

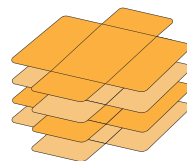

Kerbside collection FROM MONDAY TO SATURDAY

You may place out for collection:

- folded cardboard
- big and small cardboard boxes

Collection instructions:

- reduce the volume of boxes and tie them in an orderly manner
- place out for collection up to 0.5 m² of material per waste pick-up
- leave it in the agreed place for collection

PLASTIC PACKAGING collection

Kerbside collection 3 TIMES PER WEEK

The appropriate collection bags may be picked-up at any Alea Office

Put the following wastes in the appropriate collection bag:

- nylon and plastic bags, sachets and packets
- film, wrap and cellophane
- plastic bags and wrappings used for clothes and other products

Collection instructions:

- reduce the volume of packaging
- do not include dirty packaging
- leave bags outside in a visible and easy-to-reach place

Optional household services

Waste collection with EcoBus and EcoStop services

EcoBus and EcoStop are additional services for residents of the historic city centre and nearby areas to reinforce kerbside collection and are carried out using itinerant vehicles. Such services were put in place by Alea considering specific urban and architectural criteria requiring dedicated actions. In this case, the collection system requires users to bring their waste to the EcoBus and EcoStop in the appropriate bags (directly provided by Alea at any Alea Office) or bins.

EcoBus

The EcoBus works just like an average bus, it makes short stops at scheduled times and was designed to offer an extended service in the city's most central neighbourhoods. Up to two different types of waste can be collected by the EcoBus at one time. Check the schedule for collection dates and times, and to find the nearest stop. Give the appropriate bag or bin to the collection operator.

EcoStop

The EcoStop is a special vehicle that parks in predetermined fixed locations for a few hours and collects: non-recyclable waste, paper organic waste and plastic/cans. Check the schedule for EcoStop dates and times, go to the fixed parking location and give your bag or bin to the collection operator.

Use the right bins and bags!

You may bring the 30-litre bin provided by Alea Ambiente to the EcoBus or EcoStop or the special bags that bear the wording: "Use for EcoBus and EcoStop services only" (Da utilizzare solo per il servizio EcoBus e EcoStop).
